Bedhampton Piano Shop

Bedhampton Piano Shopfront

Bedhampton Pianoshop was established in 1988, and we have been buying, selling and restoring pianos ever since. We always have a selection of pianos for sale. Our aim is to stock a range of restored upright pianos, grand pianos and modern pianos, with something to accommodate all requirements, tastes and budgets.

Our second hand stock is professionally reconditioned, with the benefit of over 20 years' experience in all aspects of restoration, and an extensive network of expert technicians. We can also carry out work on your own piano, and will undertake anything from a small repair to a complete rebuild. We cover large parts of Hampshire, West Sussex, Surrey and Dorset, but also serve customers from further afield, and pianos can be delivered nationwide.

We have the ability to carry out almost any aspect of restoration, however large or small, and we are able to do most jobs in-house, keeping costs low. Our most common restoration procedures include action reconditioning and repairs, regulation, restringing, cleaning or repolishing of casework and cleaning or re-covering of keys. Please visit our piano restoration or video pages for further details and examples of our work.
