

Roberts Pianos (Southsea)

116 Albert Road
Portsmouth, Hampshire PO4 0JS
England

Phone: 023 9282 6126

We stock over 100 top quality new, modern and traditional grand, baby grand and upright pianos.

OUR HISTORY :

The Roberts family have been in the trade for four generations, starting in 1900 with David Roberts who worked as a piano and organ tuner and restorer in the Exeter area. David's son Brian helped with piano Restoration but went into music teaching. His son Marcus started as a teacher but began piano tuning and restoration in 1980. After five years tuning and restoring, with clients including Vladimir Ashkenazy, John Lill and Alfred Brendel, he took up piano dealing in 1985. We currently serve top concert venues in Oxford, London and Portsmouth with clients such as Oxford University, Portsmouth Guildhall, Wembley Arena, Eton College, Radiohead and Jamie Cullum.

OUR VISION:

We try to source inexpensive top quality grand and upright pianos based on touch, tone and appearance, having as much variety as possible in stock. We then either fully restore them or recondition them with an emphasis on touch and tone. We also restore clients' pianos and operate a removals and storage department.

MAIN STOCK

New upright and grand pianos by Yamaha and Wendl & Lung. Secondhand restored upright and grand pianos mainly by Bosendorfer, Bluthner, Bechstein, Grotrian Steinweg, Steinway, Yamaha and Knight.

We have piano shops and workshops in Oxford and Portsmouth, piano tuning and restoration in London, storage facilities and our own dedicated piano removers.
