LSM Pianos Ltd. was established over 30 years ago making piano stools for the general trade market. After a short while, a move to larger premises became necessary to expand the range of stools produced. At this time a piano retail showroom was set up and we have now been selling quality used and new pianos for over 20 years. Approximately 15 years ago, after very carefully selecting a supplier from the Far East, we began importing high quality pianos and we now sell our own range of Halle & Voight® high quality pianos both to the retail and trade market.
