With over 20 years experience in piano removals, we have all the correct equipment to move both upright and grand pianos. We are based in Halifax, West Yorkshire and also cover Greater Manchester And East Lancashire. We are fully insured and have all the correct equipment to manoeuvre pianos into the most awkward of places including up and down flights of stairs, up-ending pianos to go around tight turns etc.

Care is taken when delivering pianos to the customer; using dust sheets to protect carpets and wooden flooring.

All pianos are fitted with quilted covers while in transit and the utmost care is taken to ensure your piano is moved safely.
