We began our journey in 1982 as a french polishing and restoration workshop based in Nottingham, England. In a world of mass produced items, furniture restoration, refinishing and french polishing are no longer skills purely for antique furniture. To have a family item restored can preserve memories and provide a unique and personal piece of furniture that is both individual and a meaningful part of your home. Repairs, re-veneering, contemporary, vintage or antique restoration, lacquering and polishing are amongst our services. All our work is completed to highest possible standards where attention to the finer detail is the order of the day. We undertake all our quotations on a no obligation basis and are always happy to answer any questions or give advice regarding the care of your furniture regardless of gaining work. We perform a variety of finishing methods and techniques to both period and contemporary furniture. Decorative paint finishes, art, upholstery and making furniture are amongst our skills. Distance is no object whether the job be in our home town of Nottingham, the rest of the U.K or Overseas, we are always happy to quote. To arrange a quotation by email, please see our contact page and include a contact phone number in your message or call us during working hours on the numbers shown. One of our biggest assets is that we really enjoy doing what we do. Hopefully it shows in the work that we produce and in our approach to our customers. Over the last 35 years we have been fortunate to undertake many varied and interesting challenges, long may it continue! For us french polishing and furniture restoration has never lost it's shine!
