With many years of experience in specialist primary classroom music, I am very interested in the varied ways that children and adults learn and access music, and the personal aptitude and interest that they bring to the lesson. I try to make my approach suit the learner as much as possible. My background also includes training in the Kodaly approach which develops the musical ear and aural skills. I am keen for pupils to develop good general musicianship. My pupils work for ABRSM exams if they wish. I aim to agree short and longer term goals with each of my pupils so that our time is focused but also fun and enjoyable.

Disclosure and Barring Service: yes
Qualification: B.Ed, Grade 8
