P&T French Polishers Ltd are a small firm of highly skilled workers who work for a majority of the piano trade repairing damaged case finishes, high gloss polyester, French polish and sprayed cellulose lacquer. We also completely rebuild Grand's and Uprights. Soundboards, piano frames and woodwork repairs are a large part of our work for other companies. We carry out repairs in customers' homes and music venues frequently, so the piano does not have to be moved. I have over 25 years experience of polishing pianos. High gloss polyester lacquer repaired which can be done at the workshop or home visit.
