Piano Moving in Berkshire, Surrey, Hampshire & London At Handel Pianos, we have our own specialist piano moving team complete with an especially equipped van. This is fitted out with specialist piano moving equipment, including various piano trolleys and boards to make the job easier, safer and to take care of your home and garden whilst delivering or moving your piano. We can provide a prompt and efficient piano moving service; our experts can move your piano to another room, another house, county or country. If it is specialist piano moving that you require, i.e. staircases or moving large grands, we are happy to help organise this for you with our network of other piano moving specialists. Between them they are able to carry out stair work, crane work, help to organise road closures with the council (where needed), move your piano abroad and crate your piano for you ensuring it arrives in one piece. Below is just one of the many compliments that we have received from our satisfied customers. "Hi there, I just wanted to write and say how fantastic I thought the service was I received from the two guys who moved my piano for me on Saturday to Chertsey. They were not only fast and efficient, but provided lots of useful information as well. Please thank them for me again, I would not hesitate in getting in touch again for anything piano orientated!"
