Practice / Teaching / Recording Studio Practice Studio

We are able to offer practice facilities seven days a week in our soundproofed

practice studio. While it is often used for teaching, we do have time slots available for you to come and practice on a well-maintained and tuned quality upright piano.

The room will accommodate up to three people and is also equipped with recording devices so you can cut these onto a CD. This can be a great advantage if you have a piano lesson, and the teacher is happy to have that lesson recorded so you can

revisit the lesson in your own home. Recording Equipment

Calling all musicians, singers, film makers, actors and story tellers, teachers and students wordsmiths of sound and vision! We are delighted to announce that our

practice and teaching studios have been transformed into intimate, professional recording spaces, offering a cost effective solution for productions for Voice Over, Sound editing, Sound design, and Audio Visual Recording. As part of our continual

development we are delighted to be able to offer the following services with our Recording suites :

Recording of Pianos / Piano Lessons
Recording of Voice Over to Picture / Film
Recording of Live Events
Recording of Live Instruments

The soundproofed Control room is equipped with ProTools running on MAC OSX, while the other acts as a slave recording room. Both studios offer quality upright pianos and seating.
