Get your piano where you need it to be! Swans Music has many years of expertise in piano removal. Whether you are moving your instrument locally or long distance, it's no problem. No piano removal job is too big or too small for our highly skilled workforce. We can even hire cranes when required, for example if a piano can only be removed via a window. If you need piano storage or disposal we will be delighted to help with that too. Piano storage is available long or short term. We are a family business, started in 1930. We are fully insured to move pianos and have full public liability insurance.
