

Countrywide Pianos Polyester case repairs

194 Penn Road
High Wycombe, Buckinghamshire HP15 7 NU
England

Phone: 01494 813388

With more than 70% of all new pianos being presented in a polyester high-gloss cabinet, it is reassuring to know that we can provide in-house, and sometimes on-site polyester repair work. Being based near the historical furniture town of High Wycombe, we understand the need for a high quality repair and polishing service. Our own team of polishers have over 30 years of experience. Polyester also known as high polished bright piano finishes is a very specialist craft. We undertake this re polishing and repair work in most parts of Buckinghamshire , indeed we are often called out to many other areas including Berkshire, Oxord, Herts and Hampshire but this does incur higher costs due to travel time .Make no mistake, repolishing pianos is very specialist, it needs not just a highly skilled piano polisher but also a team of technicians and piano tuners too to ensure that the piano not only looks amazing after restoration but that it plays and sounds amazing too!
