I teach all ages, this includes adults as well! Students who have began with me in my teaching career are now undertaking their piano exams. We do lots of musical activities in our lessons to improve a certain area in their musical knowledge. We play and learn different repertoires, covering a lot of musical genres and keeping their motivation and interest going. Some students have different goals that they want to achieve in music and I will aid them in whichever path they decide to choose. Some of my students are not interested in passing grades and would rather play the piano for their own enjoyements. All students learn differently and I suit my teaching to each of their learning needs. Re-explaining things if I have to and I always make sure that they have understood what we have done at the end of their lesson. Finally, lessons are done in your own homes which means that a keyboard or a piano is needed for us to do lessons on. Fees may vary depending on how far away you are from me.

Disclosure and Barring Service: Yes
Qualification: Grade 8 ABRSM Piano
