England

Phone: 07801541058

Please scroll down for our selections of used pianos from just £600. Buying used pianos from us gives you security, whereas buying privately on various selling sites does not. We give warranties on all our pianos for sale from 1 year, but mostly 5 years for our nearly new stock. Restoring pianos in Dorset for all over the country. We are a piano restoration business which was established in 1953. So much can be wrong with used pianos, cracked frame, split soundboards, worn parts, split plank all of which can make a piano useless. Steinway Pianos View our reconditioned quality Steinway grand piano sales, restored to the highest standards in our shop. All Steinway pianos are reconditioned with traditional materials, come to our showroom to see for yourself. By appointment, unless the sandwich board is on display. All piano restorations have frame removed, soundboard stripped and refinished. We do not replace Steinway soundboards, we are not interested in producing Steinwas, only Steinways from the golden age of Steinway manufacturing. We pride ourselves on using traditional materials, especially on the soundboard and casework. The soundboards we use traditional varnishes and not spray modern materials. On the casework to showcase the wonderful hardwood rare veneers we use the old craftsmen techniques of French polish which is extremely time consuming but produces gorgeous warm rich tones.
