Privately helping individuals of 4 and more years of age learn to play the piano and understand the theory of making music with the tools of Neuro-Linguistic Programming. Students can learn with me at their homes within the London boroughs of Bromley, Lewisham, Lambeth, Croydon, Southwark, downtown Toronto Canada, and online on Skype or Zoom worldwide in lessons of 60 minutes or lengths of their choice. NLP is a set of tools for communication. It teaches people to observe how they do things and offers faster ways of improving.
