I have been teaching music (piano and keyboard) full-time for twelve years. I also teach other instruments, Music Theory and Music Technology. I have helped pupils pass Grade Exams, join and perform in bands/groups/orchestras, and many have become expert musicians. I make music lessons as enjoyable as possible, as pupils progress and practice more when they see their instrument as a source of enjoyment. I have learned over the years that each pupil requires a different approach to learning, so I adapt my teaching methods to the needs of each pupil. I am happy to teach you any style of music you would like to learn. I can provide many references from current and former pupils, and I am CRB checked.

Disclosure and Barring Service: yes

Qualification: ABRSM Piano & Music theory Grades 1-8
