Mark is an accomplished and versatile pianist. In his early years he was known for his fast finger-work and the ability to play with his arms crossed while sitting on the floor facing backwards. This made him a pianist to watch as much as listen to. More recently, Mark has performed at a wide variety of venues and settings, in various musical styles, as a solo pianist and with group/band line-ups. Mark can create anything from mellow background music to full-on Boogie-Woogie, from singalongs to the blues. Some comments about Mark..."He's mustard." GC - Thailand "I tried to take a photo but his hands were just a blur." Dr IM - Glasgow "He's probably the best pianist in the world." EG - Surrey "Dad, you're a fast typist." Daughter - Wiltshire "Best boogie ever." Spectator - Minnesota "Hey everybody, the piano-ist is here!" Publican - Ibiza "I'd love to have that amount of independence between my left and right hands." JG (pianist) - Kent
